

## Article about my visit in Los-Angeles in september 2014

The screenshot shows a news article from the website Ciné Télé Revue. The header includes categories like PROGRAMMES TV, PEOPLE, CINÉ, TÉLÉ, CONCOURS, ASTRO, and TA. A sidebar on the right is titled "NEWS RELIÉES" and lists various entertainment news items. The main article is titled "Raphaël Charlier : son évasion californienne!" and features a photo of Raphaël Charlier standing on a road in California. The text discusses his search for professional opportunities in Hollywood.

### Transliteration :

Radio and TV host, Raphael Charlier is primarily an actor. And of course the boyfriend of Maureen Louys, he left Belgium while he seeks professional openings ... Hollywood. Good luck, Raph!

We all know his voice and his owl face! On Pure FM, Raphael Charlier anime including "God Save The 90ies" on Saturday at 19h. And TV on La Deux, he is at the helm of "Coroners", which are reconstituted from surveys conducted by the American forensic (Friday at 20:20). I could have written that it is within this framework that is currently in Los Angeles, but that's not the case!

Foremost actor (he graduated from the theater section of the IAD), Raph has cravings for Hollywood! And it is perfectly legitimate! In Belgium, he played in the movies "Sister Smile" and "Go Fast" series and "The Marvelous Flying Box". And at 35, he said that a short stop in the city of angels could not make him wrong. I give it absolutely right ... It is still a few days to make contact, prospect, look for openings ... In May, he had risen to LA (and on Route 66 as shown in this photo) with his girlfriend for three and a half years, some Maureen Louys ... But this time, he left the country because she co-hosted this Saturday, September 27, a series of concerts on the Grand Place in Brussels on the occasion of the Feast of the Wallonia-Brussels Federation. An event broadcast by RTBF.

One day, Raphael and could therefore settle for good in sunny California? That dream came true for many others before them!
